Professional Summary

Innovative Mobile and Full-Stack Developer with proven experience building scalable, efficient, and user-friendly applications across web, mobile, logistics, IoT, and social media automation platforms. Skilled in React, React Native, Next.js, Node.js, and modern technologies, with a track record of delivering high-quality solutions that solve real-world problems.

Technical Skills

Frontend: React, React Native, Next.js, JavaScript, HTML/CSS

Backend: Node.js, Express

Databases: PostgreSQL, MongoDB, MySQL

Other: IoT development, Social media automation, RESTful API design

Languages: English

Professional Experience

Full Stack Developer – EngineMarts | 2025 – Present (In Progress)

- Developed EngineMarts, a Next.js-based global talent marketplace connecting verified engineers and technical specialists with companies worldwide.
- Built full stack features supporting both frontend interfaces and backend logic.
- Implemented multi-step profile onboarding with skill and certificate verification.

Full Stack Developer – ExpertDex | Nov 2025 – Jan 2026

- Developed a logistics platform connecting vehicle owners/drivers with users needing load transportation services.
- Designed backend architecture, APIs, data models, and business logic for logistics operations.
- Built complete user-facing frontend using React, covering onboarding, route selection, vehicle selection, and payment flows.

- Integrated frontend and backend systems for real-time logistics workflows and secure transactions.

Frontend Developer – Vulue | 2022

- Built and maintained core frontend features using React for collaborative finance software across West Africa.
- Translated financial workflows into intuitive UI/UX.
- Contributed to product features supporting data-driven financial insights.

Senior Mobile App Developer – Avly, Port Harcourt | Jun 2024 – Aug 2025

- Built a social media management app allowing multi-platform content scheduling and analytics.
- Streamlined UI/UX to improve usability and engagement.

Mobile App Developer – Grow Quest, Port Harcourt | Aug 2025 – Sep 2025

- Developed a personal development app with digital library, video content, mentorship, and community features.
- Integrated social media functionality including reels and post feeds.
- Delivered a seamless user experience across Android and iOS platforms.

Mobile App Developer – Reality 3DHub, Port Harcourt | Jun 2025 – Jul 2025

- Built an electric bike companion app with user registration and real-time performance dashboard (speed, distance, battery stats).

Education

B.Eng. Mechatronics Engineering – University of Port Harcourt, Nigeria | 2021 – 2026

Certifications & Trainings

- Cisco Networking Basics Certification
 - Cisco Python Programming Certification
 - Applied AI Labs – WorldQuant University
-

Projects & Highlights

- EngineMarts – Global talent marketplace connecting engineers from emerging markets to companies worldwide.
 - Logistics Platform (ExpertDex) – Real-time vehicle/load matching with secure payment and route management.
 - Electric Bike Companion App – Realtime bike performance monitoring.
 - Social Media Management App – Multi-platform content scheduling and analytics.
 - Personal Development App – Digital library, mentorship, video content, and community features.
-

Key Strengths

- Full-stack and mobile app development
 - Cross-platform applications and IoT integration
 - App design, deployment, and maintenance
 - Agile development and startup adaptability
 - Problem-solving and collaboration skills
-
